

## Counter Terror Advice for Businesses

In the light of the recent atrocities affecting our communities in both Manchester and London and the increased risk of further attacks, we are relying more on the public to remain vigilant and to act on their instincts to help prevent further attacks. We are advising the public to 'act' by reporting any potential suspicious activity in order to help police bring offenders to justice.

We are working with partners at local and national level to ensure communities, including businesses are reassured and kept informed and updated as to what to do to protect themselves in the event of a further terror attack.

Below are some helpful links to further information, support and guidance:

NaCTSO Homepage (National Counter Terrorism Security Office)

<https://www.gov.uk/government/organisations/national-counter-terrorism-security-office>

*This is the authoritative source for counter terrorism information. Also contains contact details for NaCTSO. All the publications below can be found on this site and the links are provided for convenience only.*

Protecting crowded places from terrorism

<https://www.gov.uk/government/collections/crowded-places>

*Includes bespoke industry sector specific guidance. More than one guidance document may apply to your business.*

Guidance for security managers to improve sites security stance

<https://www.gov.uk/government/publications/advice-for-security-managers-following-a-threat-level-change-to-critical>

*Advice for security managers of crowd places to improve security and forms part of an escalation plan should the threat level rise. Guidance includes a number of tactical and operational options.*
